

Valuation work for FREO Group (UK) LLP.

About the business

FREO Group is an independent European investor, developer and asset manager of high quality commercial real estate.

How we helped

As part of a wider global restructure, FREO Group's UK business was to be converted from an LLP into a Limited company, and management required an independent third party opinion on their calculated valuation range for tax purposes.

Buzzacott conducted a valuation review and helped to provide an expert appraisal of the valuation of FREO to enable the restructuring.

Our focus is on transactions in the £5m to £100m space including disposals, fundraisings, management buy outs, acquisitions, financial diligence and debt advisory.
