

One stop shop for Social Business start ups in the UK

Getting started

Our friendly team of experts shall help you choose the right set up for your business (charity, CIO, CIC, BenCom, limited company or LLP). We shall set up the chosen entity for you and provide impartial advice on what services are essential at the start up stage. For most new businesses it is cost effective to outsource as many basic business services as you can (payroll, bookkeeping, company secretarial). Our outsourcing team can deliver the chosen services tailored exactly to your needs.

We pride ourselves in providing added value to our clients. Over the years we have built strong relationships with a number of high street banks, reputable corporate lawyers, domain name and trade mark agents and many other specialists offering services outside our expertise. Opening a business bank account is often a source of major aggravation for new businesses. Although we cannot set up the bank account on your behalf, we are able to open the doors for you in most high street banks and put you in touch with the right person who can help.

Our range of start up services includes:

- Company secretarial (incorporation of the chosen entity and on-going statutory compliance)
- Payroll (setting up and managing a PAYE scheme for your employees and ensuring compliance with the relevant regulations)
- HR Consultancy (employment contracts, health and safety compliance)
- Accounting and Bookkeeping (tailored to the needs of your business)
- Corporate taxation (advice and compliance)
- VAT (registration and compliance)
- FCA registration and regulatory reporting (if relevant)
- Business structuring advice
- Corporate finance and business planning
- Statutory audit and reports for commissioners

We can also put you in touch with:

- The right person at a high street bank to facilitate setting up a business bank account
- A solicitor for advice on contracts on property matters

- Trade mark or domain name registration agent
- IP and patent agent
- A financial adviser to set up professional indemnity insurance, key individual insurance etc.
- A social value measurement expert
- Social financial providers

Employee benefits

How can we help?

Our Financial planning team can help you tailor a benefits scheme that is affordable for you and that will be valued by your staff. Working with our clients to establish your specific requirements, we can create bespoke schemes that will support your business in achieving goals allowing your organisation to receive the full benefits of providing such schemes. If you would like to know more about any of the services that the team offers or if you have a client or prospect that might benefit from support from the team, please contact:
